# **F.R.E.D**

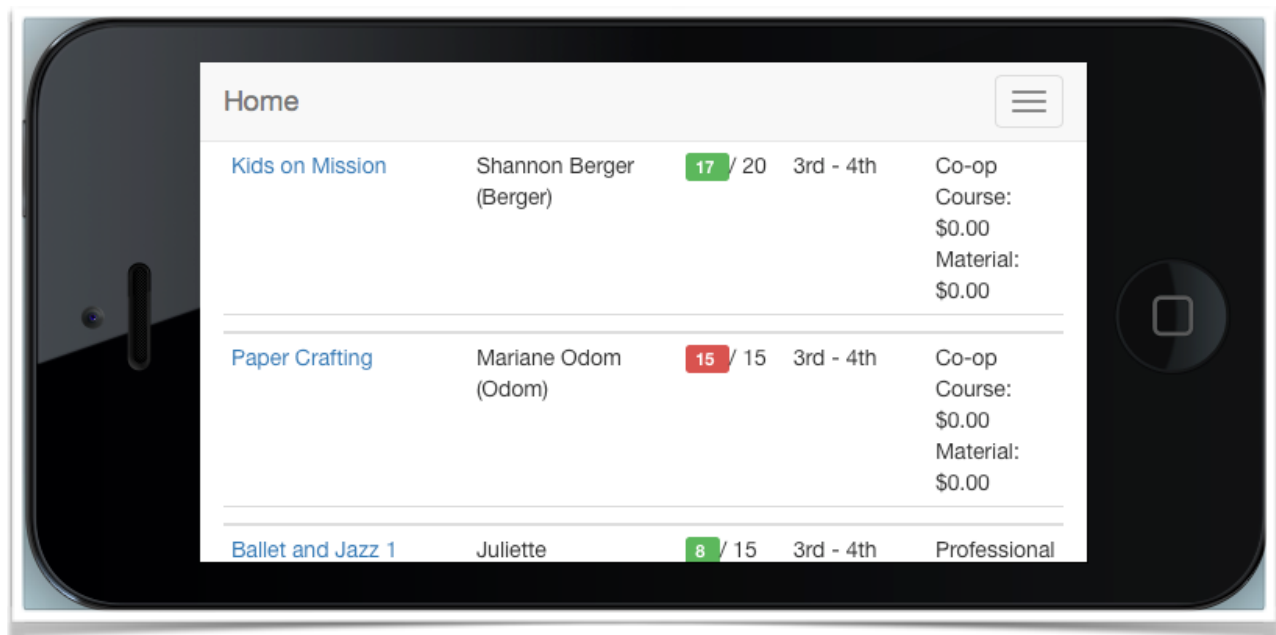

Version 3

# Mobile

## Beauty in the hands of the beholder

Life is so much simpler with a hand held device. And so is F.R.E.D. Every page has been redesigned to look awesome on every device: from your large LCD display to your small mobile phone - and every size in between.

Now, managing your family profile and enrolling in upcoming classes is easy to complete on any device.

# Family Control

You are in control

Now you can control which family members have access to F.R.E.D. Give your children (or not) authority to log in. Change your (or their) password and even user names!

# Faster Enrollment

A single click is all you need

No longer do you have to enroll each child for each class. Now you can enroll all of your children in all of their classes at one time. When you are ready, simply press the "Submit Enrollment" button.
